

SUMMER CLOTHING—M. GUTMAN &amp; CO.

## My Love is the Man in the Moon

May do for a song, but the fellow is too distant to be a very interesting character.

It's much more practical to think about our clothing and pass from the moon man to the well-dressed man who has one of our Summer Suits.

This is not an age of moonshine and fancy, but one in which the good things in life are brought within the reach of all.

## Good Clothing

Is a necessity, and better suits than ours cannot be discovered.

Council Committee on Wharves  
Views the Scene of

#### THE PROPOSED IMPROVEMENT

And Then Adjourns Without Taking Action—Another Meeting will be Held Thursday Evening, when the Railroad's Chief Engineer will be on Hand—Other Council Committees Meet.

The city council committee on wharves met yesterday afternoon at 3 o'clock at the public building for the purpose of considering the request of the Peewiky road for a slice of the city's wharf in order to secure ground for additional tracks and a large and modern passenger station building to replace the present dilapidated structure. The members who were on hand were: Chairman O'Malley, Maxwell, Weidenschlag and Dobbins. Messrs. Paull and Wheat, who are members of this committee, were out of the city.

Mr. W. P. Hubbard, representing the railroad company, showed a set of drawings setting forth what is desired. The company want the committee on wharves to grant them the use of additional space along the wharf, at the widest point twenty-one feet beyond the outside rail of the present track; from that point the line of the proposed wall runs in a straight line to the one track opposite Windsor alley. From the twenty-one foot point the amount of space taken up narrows down to eleven feet at the upper end of the station.

After Mr. Hubbard had completed his explanation, Capt. Crookard, of the wharfbank, observed that not a month ago, he had occasion to use the part of the wharf which the railroad people want and which Mr. Hubbard had called a "sore-eye spot," for a thousand kegs of nails, and that it was often used for wharfage business.

Capt. Crookard thought that instead of encroaching on the wharf the railroad could get a grant from the city for a part of Water street. Mr. Hubbard suggested that the committee look at the street and that possibly a compromise could be effected.

Mr. Hubbard had the committee look at the situation from the 25-foot mark, and said that the wharf business very seldom got above that point, which is above the outside of the proposed wall. Mr. Crookard said the river had been up to the 25-foot mark once a month for some time.

The committee looked at the Water street situation. Mr. McGregor, one of the county commissioners, thought the street property more valuable than the wharf, being used for a great amount of wagon traffic. Captain Crookard retorted that the wharf is also used for an immense amount of business.

Mr. Hubbard said that should the committee decide to recommend granting a portion of Water street, he could not at that time accept it; he would first have to consult with Chief Engineer Becker, of the railroad company, and see whether it would be practicable. He also read a letter from Mr. Becker, in which he gives reasons for a slice of the wharf, among them that the present tracks are entirely inadequate, only one being available for handling passenger trains, while two side tracks now above the station are but 250 feet in length, and hold only four passenger cars; it is possible for but one passenger train to arrive or depart at any one time, the transfers are inconvenient and the freight business of the road is interrupted. Under the plans adopted freight trains can proceed uninterruptedly, there being a track for them alone. In the plans there is a short spur track on the inside of the main tracks for the use of arriving and departing Ohio River trains. Concluding Mr. Becker wrote that he didn't see any other practicable plan to get the road out of its difficulties.

Mr. Hubbard thought it would be impracticable for any attempt to push the proposed new building any further east than as shown in the plans, which shows the east end to be on the site of the old stable east of the present passenger station building.

Mr. Dobbins was in favor of giving the company what ground is needed, on Water street, or part on Water and part on the wharf. If twenty-one feet is taken off Water street it would leave about thirty-five or forty feet of clear street. Mr. Hubbard, however, could not act on such a proposition, and the committee adjourned, to meet again Thursday evening at 6:30 o'clock, when Chief Engineer Becker will be present, and an endeavor made to suit all the parties concerned.

Some of the Water street residents will kick against any encroachment on that thoroughfare.

Last evening the council committee on fire department met again to talk over the repairs to the Vigilant engine. After a good deal of discussion the award to Charles Oliver at \$200 was allowed to stand, the work to be done to the satisfaction of Engineer William Cotts, and this price not to include the painting.

The streets, alleys and grades committee deferred action on the grading of the upper road above Jonathan's ravine till the top mill officials can meet with it. There was talk about an extension of alley B north of Seventh street, which was by implied contract to be paved. This was referred to the first ward members of both branches for examination and report.

The Stule Will Recover.

F. R. Criswell says the mule whose tongue was said to have been pulled out last week did not have to be killed, as it was supposed of course would be the case. The tongue, he farther says, was only cut off about two inches, and the mule is recovering and will be in condition to work again by Wednesday.

AD. COSWAY, of Martin's Ferry, says that he was not knocked down on the wharf there on Sunday morning, as was stated. He was, however, struck on the head.

EVERY Wednesday a committee of the Women's Hospital Association receives callers at the City Hospital, and on that day the public is cordially invited to visit the hospital.

WILLIAM FAUSTICK was arrested yesterday by Officer O'Brien, for disorderly conduct, and B. H. Wrench by Officer Trischler, on the same charge. Chris. Kline was run in by Buch on the same old charge, plain drunk.

Revival at Mannington. Special Dispatch to the Intelligencer.

MANNINGTON, W. Va., June 5.—On last Wednesday evening Rev. Francis E. Smiley, the noted evangelist, began a series of evangelistic services under the auspices of the Presbyterian church of this place. On Sabbath the meetings were transferred to the grove near by and fully one thousand persons attended the evening services. This is the largest religious gathering ever held in Mannington. The stores are closed for the evening services and much interest is manifested.

Decoration Day at Mt. Zion. Special Correspondence of the Intelligencer.

MOUNT ZION, CALHOUN CO., W. Va., May 30.—Decoration day was observed for the first time in the history of the county. The bourn post No. 52, G. A. R., decorated the graves of all soldiers by detail buried in this part of the county, assisted by many citizens. All displayed great interest in the work. This was gratifying to the old soldiers. It made them feel that they had not yet outlived their day. Addresses were delivered at the cemetery by S. S. Lockney, William Barr and others.

Now your blood should be purified. Take Hood's Sarsaparilla, the best spring medicine and blood purifier.

Four counters crowded with appreciative silk buyers yesterday. Don't wait until everything is picked over. Come to-day.

EMIL SCHMIDT will formally open his saloon, 1531 Market street, Wednesday night, with a grand lunch and soup.

There's danger in a cough more than ever when your blood is "bad." It makes things easy for Consumption. But there's a cure for it in Dr. Pierce's Golden Medical Discovery. A positive cure—not only for Weak Lungs, Spitting of Blood, Bronchitis, Asthma and all lingering Coughs, but for Consumption itself in all its earlier stages. It's reasonable. All these diseases depend on tainted blood. Consumption is simply Lung-scrofula. And for every form of scrofula and blood-taint, the "Discovery" is a certain remedy. It's so certain, that its makers guarantee it to benefit or cure, in every case, or the money is refunded. With a medicine that is certain, this can be done.

There's a cure for Catarrh, too, no matter what you've been led to believe. If there isn't, in your case, you'll get \$500 cash. It's a bonus offer that's made by the proprietors of Dr. Eagle Catarrh Remedy.

They are willing to take the risk—you ought to be glad to take the medicine.
